## THE TOP STORY

### BANDITS BANNER REVEAL

What a great day here at ABF, a surprise banner for the Bandits Varsity team was revealed to the young athletes that left them full of joy. These banners represent all the hard work our Bandits have put in this year. Students and parents were excited and appreciative of their sons being represented for their dedication and their hard work. Along with the Varsity Banner, Seniors, Anthony Hernandez and Carlos Nunez were presented with their own banners that will be displayed at their homefield JD Redd Park

### BEYOND ABF

What better way to explore life after graduation than a field trip. Ms. Terri along with some graduating Seniors had an amazing tour exploring options at Lindsey Hopkins Technical School. The Bandits excited to learn more about their Automotive Service and Marine Service Technologies Programs.

ABF is proud to announce that Carlos Nunez and Jojo Bermudez were accepted into the Marine Technologies Program and we can't wait to see them succeed.

# LUCKY CHARMS

On St. Patrick's Day, with joy and cheer, We celebrate a day so dear. In emerald green, the world is dressed, As Ireland's spirit is truly blessed. May luck and blessings come your way, On this St. Patrick's Day, I say. May joy and laughter fill the air, And memories be made, beyond compare.

At ABF the students and teachers celebrated by wearing green, eating green snacks, and students were engaged with St. Patrick's Day learning and fun activities.

# LeARNING Fun

At ABF Academy the students enjoy hands-on learning. After learning about the Ocean Ecosystem, students in 4th and 5th Grade created their own ocean display. With the guidance of their teachers Ms. D and Mr. Minnis the students researched and created their own elements to add to the display. Mr. Minnis encouraged students to get creative and use what they had learned, including coral, fishes, different sea animals, and some even made bubbles to add to the realism of the display. It is always a great day to see the students at ABF learning and creating.
